Office of the Inspector-General of Prisons,

Madras, dated the 16th February 1925.

Endorsement No. C/ 442

Forwarded for favour of sanction.

2. It is necessary now that the Alipuram water works a almost complete that a telephone connection be arranged between the Jail and Pumping Station. The distance is 3½ miles and messages must be sent for commencing and interrupting pumping operations as required by the state of the reservoir in the Jail. Obviously a bicycle orderly to cover this distance will be very awkward. The future of the Jail has not yet been definitely settled but as the water works are permanent and whatever the fate of the Jail will be required for the Cantonment it is requested that the sanction, although for a period of 5 years, be accorded.

Lieut-Col. I.M.S.,
Ag. Inspector-General of Prisons

To, The Secretary to Government,
Law (General) Department,
Fort St. George, Madras.

TELEPHONE HIRING CONDITIONS FOR GOVERNMENT CONNECTIONS.

1. The rent for the telephone connection referred to on the first page shall be payable and from the date the instrument is placed in circuit, or from the date specified overleaf by the subscriber, whichever is later.

2. If the connection is countermanded on a date prior to the completion of the connection, the subscriber shall be liable for the actual expenses incurred up to that date.

3. (*To be struck out except in the case of a connection required for an indefinite period.*) After the expiry of the first year, the service may be disconnected at the option of either party on at least seven days' notice in writing. If the subscriber fails to give such notice he shall be liable in lieu thereof for seven days' rent calculated at the annual rate.

4. The Divisional Engineer, Telegraphs, shall erect and (subject to the observance by the subscriber of all the clauses and conditions herein contained) maintain in good working order the apparatus referred to on the first page hereof, and in the event of the apparatus not being in good working order, the Divisional Engineer, Telegraphs, shall repair and restore the same with all possible despatch, and the subscriber shall give all possible assistance for this purpose; but the Divisional Engineer, Telegraphs, may at any time on the expiration of seven days' notice in writing remove and take possession of any apparatus installed, should he consider it necessary or advisable to do so, and in such case rent will be charged only up to the date of removal of the apparatus.

5. The Department of Posts and Telegraphs shall not be liable for any loss or damage occasioned by delay in establishing or restoring communication, or by the interruption or disturbance or stoppage of communication from any cause whatsoever.

6. The subscriber shall take good care of the apparatus and of all the fixtures and accessories connected therewith, and shall not damage, alter or remove the same, or allow the same to be damaged, altered or removed, and shall not make or suffer to be made any attachments or alterations to the same, and shall not obliterate or allow to be obliterated any marks, words or numbers which may be written, painted, stamped or impressed thereon. In the event of the apparatus or any part thereof on the subscriber's premises being damaged or altered from any cause whatsoever, the subscriber shall pay to the Department of Posts and Telegraphs the cost of repair of such damage or alteration.

7. The subscriber shall not send or receive, nor permit to be sent or received, by or through the said apparatus, any message in respect of which any money or other consideration shall be paid, given or promised to the subscriber or to any other person or body than the Department of Posts and Telegraphs.

8. Should the subscriber wish any alteration to be made in the apparatus installed under these conditions, the subscriber shall pay the cost of such alteration at the rates then in force. Further, if such alteration affects the length of line in use, the rent charge will be revised accordingly at the rates then in force, subject to the proviso that if the alteration entails a reduction in the rent the original rent will be charged to the end of the period, for a periodical connection, or, to the end of the first year for a continuous connection.

9. The books kept by the Divisional Engineer, Telegraphs, shall be sufficient and conclusive proof of the dates.

10. When the subscriber ceases to require the telephone service he shall surrender to the Department of Posts and Telegraphs the said wire and apparatus with all fixtures and accessories in as good condition as when installed, ordinary wear and tear alone excepted, and the Divisional Engineer, Telegraphs, may forthwith remove the same, and for that purpose Telegraph officials and workmen shall, at all reasonable times have access to the premises of the subscriber, and to all other places under the control of the subscriber, through, under or over which any part of the wire or apparatus passes or to which it is fixed, and the subscriber shall have no claim for any compensation or damages whatsoever.

Telephone - Alipuram Central Jail

US

The Govt. of India have since accepted the offer of the Madras Govt to purchase the military buildings now occupied by the Alipuram Jail and the file has been sent to Rev & Finance. The future of the Alipuram Jail Branch Telephone has nearly settled. The need for a telephone connection between the Jail and the Pumping Station is fully set out in the D.G's letter and may be accepted in this Dept. With these remarks the file may be passed on to P.W.D for the usual orders.

The draft may be accepted in this department. The expenditure in 1925-26 will have to be met from the total provision fixed in the Budget with reference to the voting of the Legislative Council.

No objection if it is decided to return the jail for 5 years. But it seems unnecessary to give a guarantee for 5 years. The file may be seen if required by any
